

	Purpose of schedule	Equivalent section of current system	Use
Schedule 1 Directory	<ul style="list-style-type: none"> » Part 61 and Part 64 authorisations are listed in tables under appendices within the schedule » For each authorisation, the applicable units of knowledge and competency are specified 	<ul style="list-style-type: none"> » Day VFR Syllabus – first column of the Achievement Record » Specific CAOs and other documents where the training content is specified 	<ul style="list-style-type: none"> » <i>Training organisations</i> reference the appropriate appendix and section to identify the units of competency to be included in a course of training for an authorisation » <i>CASA</i> refers to the same section of schedule 1 to check a training course, proposed by a training organisation, includes all the required content in order to approve that course
Schedule 2 Competency standards	<p>Each unit of competency is prescribed under the following headings:</p> <ul style="list-style-type: none"> » Unit Description » Elements and performance criteria » Range of variables » Underpinning knowledge 	<ul style="list-style-type: none"> » Day VFR Syllabus – Flight Standards » CAO appendices for practical training content – not competency based 	<ul style="list-style-type: none"> The unit specification sets the benchmark standard » <i>Training organisations</i> refer to the applicable unit and apply the content of the unit specification into their training course and their assessment tools » <i>CASA</i> refers to the unit specification to ensure the content of a training course adequately covers the specification when approving the course and conducting surveillance
Schedule 3 Aeronautical knowledge standards	<ul style="list-style-type: none"> » Knowledge standards are listed under topic headings » The content of each topic is prescribed in detail » The content of examinations is drawn from these standards 	<ul style="list-style-type: none"> » Day VFR Syllabus – Aeronautical knowledge syllabus » CAO appendices for aeronautical knowledge – not prescribed in outcome terms 	<ul style="list-style-type: none"> The unit specification prescribes statements of knowledge » <i>Training organisations</i> refer to the applicable unit and apply the content of the unit specification into their training course and assessment tools. Individuals use them for self-study » <i>CASA</i> refers to the unit specification to create examination questions and compile examinations. Knowledge deficiency reports reference the standards
Schedule 4 Theory examination standards	<ul style="list-style-type: none"> » Schedule 1 lists the units of aeronautical knowledge that apply to a particular Part 61 authorisation » This schedule provides the description, pass standard and duration of each exam 	<ul style="list-style-type: none"> » CASA website » FCL Procedures Manual 	<ul style="list-style-type: none"> » <i>Training organisations and examination candidates</i> might refer to this schedule although they are more likely to refer to the CASA website » <i>CASA</i> refers to the schedule when configuring examinations in the PEXO examination system and to publish the information on CASA's website
Schedule 5 Flight test standards	<ul style="list-style-type: none"> » This schedule identifies the units of competency that must be included in a flight test that is prescribed in Part 61 » The content is prescribed in schedule 2 	<ul style="list-style-type: none"> » CAO for content of flight test » Flight test forms 	<ul style="list-style-type: none"> Each flight test prescribed in Part 61 is detailed in this schedule » <i>Training organisations, flight test candidates, flight examiners/approved testing officers</i> might refer to this schedule although they are more likely to refer to CASA's website and the Flight Examiner Handbook » <i>CASA</i> refers to this schedule for configuring flight tests and for the Flight Examiner Handbook
Schedule 6 Proficiency check standards	<ul style="list-style-type: none"> » This schedule identifies the units of competency that must be included in a proficiency check that is prescribed in Part 61 » The content is prescribed in schedule 2 	<ul style="list-style-type: none"> » CAO for content of renewal flight test » Flight test forms 	<ul style="list-style-type: none"> Each proficiency check test prescribed in Part 61 is included in this schedule » <i>Operators, pilots and flight examiner/approved testing officers</i> might refer to this schedule although more likely to refer to CASA's website, Advisory Circular on proficiency checks and the Flight Examiner Handbook » <i>CASA</i> refers to this schedule for approving training and checking systems, when conducting checks and when preparing the Flight Examiner Handbook
Schedule 7 Flight review standards	<ul style="list-style-type: none"> » This schedule identifies the units of competency that must be included in a flight review that is prescribed in Part 61 » The content is prescribed in schedule 2 	<ul style="list-style-type: none"> » Flight review CAAP 	<ul style="list-style-type: none"> Each flight review prescribed in Part 61 is prescribed in this schedule » <i>Operators, Pilot Instructors and pilots</i> might refer to this schedule although more likely to refer to CASA's Advisory Circular on Flight Reviews and CASA's website » <i>CASA</i> refers to this schedule for developing advisory material on the conduct of flight reviews
Schedule 8 Assessment standards	<ul style="list-style-type: none"> » This schedule prescribes the flight tolerances that apply to flight tests, proficiency checks and flight reviews » Separate tolerances are prescribed for various licence levels and ratings » Language proficiency assessment standards are prescribed in this schedule 	<ul style="list-style-type: none"> » Day VFR Syllabus for licences » CAO for content of IR and NVFR ratings 	<ul style="list-style-type: none"> Each flight test, proficiency check and flight review prescribed in schedules 5, 6 and 7 refers to schedule 8 for the flight tolerances that apply to the particular activity » <i>Operators, pilots, flight examiners, ATOs, instructors</i> could refer to this schedule although unlikely as they would refer to the Flight Examiner Handbook and Advisory Material » <i>CASA</i> refers to this schedule for developing flight tests, proficiency checks, advisory material on the conduct of flight reviews, and preparing the Flight Examiner Handbook
